LSNF receives financial assistance primarily from the following sources: Legal Services Corporation, The Florida Bar Foundation, Department of Justice, Internal Revenue Service and local Area Agencies on Aging and United Way. Social Security Disability Lawyer	2002 old St. Augustine Road Tallahassee, FL 32301 850-942-8978	Social security disability benefits are not awarded to everyone who applies for them. In fact, it is not at all unusual for an initial social security disability claim to be rejected. When this happens, you have the right to appeal the decision by filing a second social security disability claim. In many cases, the first claim might be rejected because of incomplete information supplied by your doctor or employer. It could be that your documentation did not adequately explain your medical condition and how it affects your ability to work. A disability attorney can rework that documentation to ensure it provides the specific information the SSA is looking for. Once the information is complete, your social security disability claim has a much greater likelihood of getting approved.	Legal Services	14 and up
